correctly represents to group of numbers/symbols based on the following coding system and the conditions and mark the number of that combinations as your answer.

Letters Codes	:	S	H	P	W	L	D	K	J	X	Z	Q	T	N	F

- Conclusions**
- I. If the first element is a symbol and the last element is a number, then the codes for both are to be interchanged.
 - II. If both the first and last elements are symbols, then the last element is to be coded as the code for the first element.
 - III. If the group of elements contains only one symbol, then that symbol is to be coded as A.
